

I benefit from listening to XM Satellite Radio and its traffic and weather channels. When I am coming into the city of Dallas and Fort Worth, TX., I do not have time to wait until the ballgame is over to get a quick 10 second traffic report that is an hour or more old. I need to know about any accidents or road closeures when they happen so I can take approiate action/detour. I need to run on schedule and arrive on time and this helps me meet that mission.
